

QUESTIONS FOR THE DEFENDANT

In the faithful execution of my oath to protect the Constitution of the United States of America, this oath taken by me when I was Naturalized as an American citizen on September 17 1987, I would like to ask the Defendant these questions in Court;

- (1) Why was I stopped on Interstate freeway 35E on March 4 2001 around 1045Hrs?
- (2) Why was I detained and compelled to drive my Motor Home 10 miles for the convenience of the police (DPS) to their parking lot for an inspection of the exterior of my Motor Home with K9 police search dogs?
- (3) Why didn't the police (DPS) use every Law Enforcement tool at their immediate disposal to faithfully record the events at the police (DPS) station parking lot where the outside inspection of my Motor Home by the K9 search dogs occurred and the subsequent several hour long thorough search of the interior of my Motor Home took place on the afternoon of March 4 2001. Specifically, why didn't CORONADO park his police cruiser equipped with the sophisticated electronic video recording equipment (wireless microphone) and recording a field of view only in the forward direction from the dashboard of the police car, in such a way as to impartially record the events that took place at the police (DPS) station parking lot during the outside inspection of my Motor Home by K9 search dogs?
- (4) Why were the K9 police search dogs allowed to make physical contact with my Motor Home (OFF CAMERA) where each and every one of the four K9 police dogs was allowed by their human operators to scratch the paint of my Motor Home with their sharp claws causing an estimated financial damage of \$2634.80?
- (5) Why was the red shop rag clearly indicated by the single K9 search dog from the Cedar Hill police department to be suspicious by way of wanting to follow the strong smells emanating off this red shop rag with its nose as the wind carried it away from my Motor Home upon opening the refueling access door, while at the same time the K9 search dog operator pulled back the search dog with the leash to limit the dogs search only to the vicinity of my Motor Home letting the red shop rag blow away from the search scene by the strong wind. Specifically, why was this red shop rag not collected for evidence and analysis?
- (6) Why did the police (DPS) conduct a several hour long humiliating search of the interior of my Motor Home off camera with four different K9 search dogs without obtaining the legal authorization by way of a Search Warrant issued by an impartial Judge depicting the place, the time, the what, the where and the why a search of the interior of my Motor Home must be conducted, and such legal authorization be supported by sworn testimony of witnesses under the penalty of perjury and presented before the search?
